Regulation for investment will remain a key element of the Programme, although the report differs from other activities of the Programme in that it focuses only on restraints to foreign investment (refer to Annex 1 and 2).
1. Investment Climate and Regulations

In circumstances where regulation could have a positive impact on long-term investment but is lacking, it needs to be created. This goes for both the direct and indirect forms of positive impact. For example, standardization of regulations relating to covered and green bonds and cross-border investment through real-estate investment trusts would encourage more long-term investment.
